

Mevesi and Mobile MedSoft Announce Partnership

Mevesi expands its reach to Helix Pharmacy System customers

FOR IMMEDIATE RELEASE

Orlando, FL, January 14, 2013 – Mevesi, Inc., the sole provider of business intelligence solutions for independent pharmacies, announced today that it is now partnering with Mobile MedSoft.

Mobile MedSoft's Helix Pharmacy System customers will now be able to utilize Mevesi to analyze their data, a capability that can lead to transformative business decisions. The integration of Mevesi's software with the Helix Pharmacy System provides a web based interface for users gain a better understanding of their business.

"As Mobile MedSoft agrees, efficient operations lead to better patient care. We look forward to showing Helix Pharmacy System users how to transform their data into actionable business insights," said Omar Sosa, President of Mevesi.

"Mevesi is moving the pharmaceutical industry forward with its innovative solution," said Duke Yetter, CEO of Mobile MedSoft. "Big data is transforming the way companies do business, and we are pleased to introduce this competitive asset to our customers."

About Mevesi, Inc.

Mevesi is the leading business intelligence service provider for independent, small chain, and specialty pharmacies. This affordable, powerful and flexible business software provides insight to pharmacies faster and easier than ever before, enabling pharmacies to make more accurate business decisions by providing revenue, expense and volume dashboards, key performance indicators, and drug, payer and market scorecards. Mevesi turns data into a powerful asset that provides pharmacy owners and managers with the ability to make data driven decisions every day.
