

KeyCentrix™
Transforming Pharmacy Management

January 2012

KeyCentrix, LLC is pleased to bring RxKey® customers enhanced business intelligence tools through our recent partnership with Mevesi, Inc. The integration between RxKey and MevesiRx provides information about revenue, margins, store locations, products, and market performance, enabling independent pharmacy to effectively share critical information across their organization and enhancing communication with patients.

We are confident that KeyCentrix customers will find the Mevesi staff to be knowledgeable, attentive, and responsive to their needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Elie Khalife".

Elie Khalife
Chief Operating Officer
